## ***ADDENDUM NO. 3***

For  
**Diamond Street Bike Path Bid Package**

**June 9, 2023**

## 1. THIS ADDENDUM INCLUDES:

- A. Questions & Answers
- B. City Engineering Department Permit Requirements (Reference)
- C. Updated List of Registered Plan Holders and List of Pre-Bid Job Walk Attendees.

2. GENERAL: Bidder shall acknowledge receipt of this Clarification on the Bid Form. Failure to do so may render the Bidder's Bid to be non-responsive.

3. CHANGES, ADDITIONS, DELETIONS: The following changes, additions, or deletions shall be made to the following documents as required, and all other conditions shall remain the same.

## A. QUESTIONS &amp; ANSWERS

- 1) Question 1 : Addendum 1, questions 1 response, clarified that the retaining wall is to be shotcrete. Given detail 1/3.1 can the wall be constructed using cast-in-place (CIP) methodology?

Answer:

Shotcrete or cast in place concrete are acceptable.

- 2) Question 2 : We are having a hard time in obtaining a quote for the Myers Pedestal (page E300) as the supplier has the following questions:

The wiring diagram vs. enclosure drawing don't match. Wiring diagram shows a metered unit where the meter is hooked up on the line side but not used on the load side & the enclosure

The controls don't seem to make sense going from the 4 pole main breaker to a power distribution block to 2 separate load centers both of which are unmetered.

Answer:

Please refer to Exhibit A Sheet E200 with Delta 7 dated June 7, 2023 with reference to RFI 7 for updated information provided for clarification.

- 3) Question 3 : The top of the finished surface and the top of the wall indicate that the wall would be 6 feet tall

The irrigation and planning area with vines indicates 1 foot-deep by 1-foot wide area that would make the wall 7 foot tall for the most part.

Question, how tall is the wall from the footing up?

Answer:

Refer to Detail 1 on Sheet S3.1 which indicates a minimum of 18 inches from top of footing to grade. Refer to Sheet C210 for top of wall elevations and finish grade elevations. Height above grade should not exceed 6'-0".

- 4) Question: 4. Is it acceptable to provide possible alternates during bid submission(materials; scope; etc.)?

Answer:

There are no bid alternates for this project. Submitting a bid alternate would be considered a non-responsive bid. See also Article 4.8.2 General Conditions for information regarding substitution requests during submittal phase.

B. CITY OF REDONDO BEACH PERMIT REQUIREMENTS

- 1) City of Redondo Beach permit requirements are provided for your reference as Exhibit B.

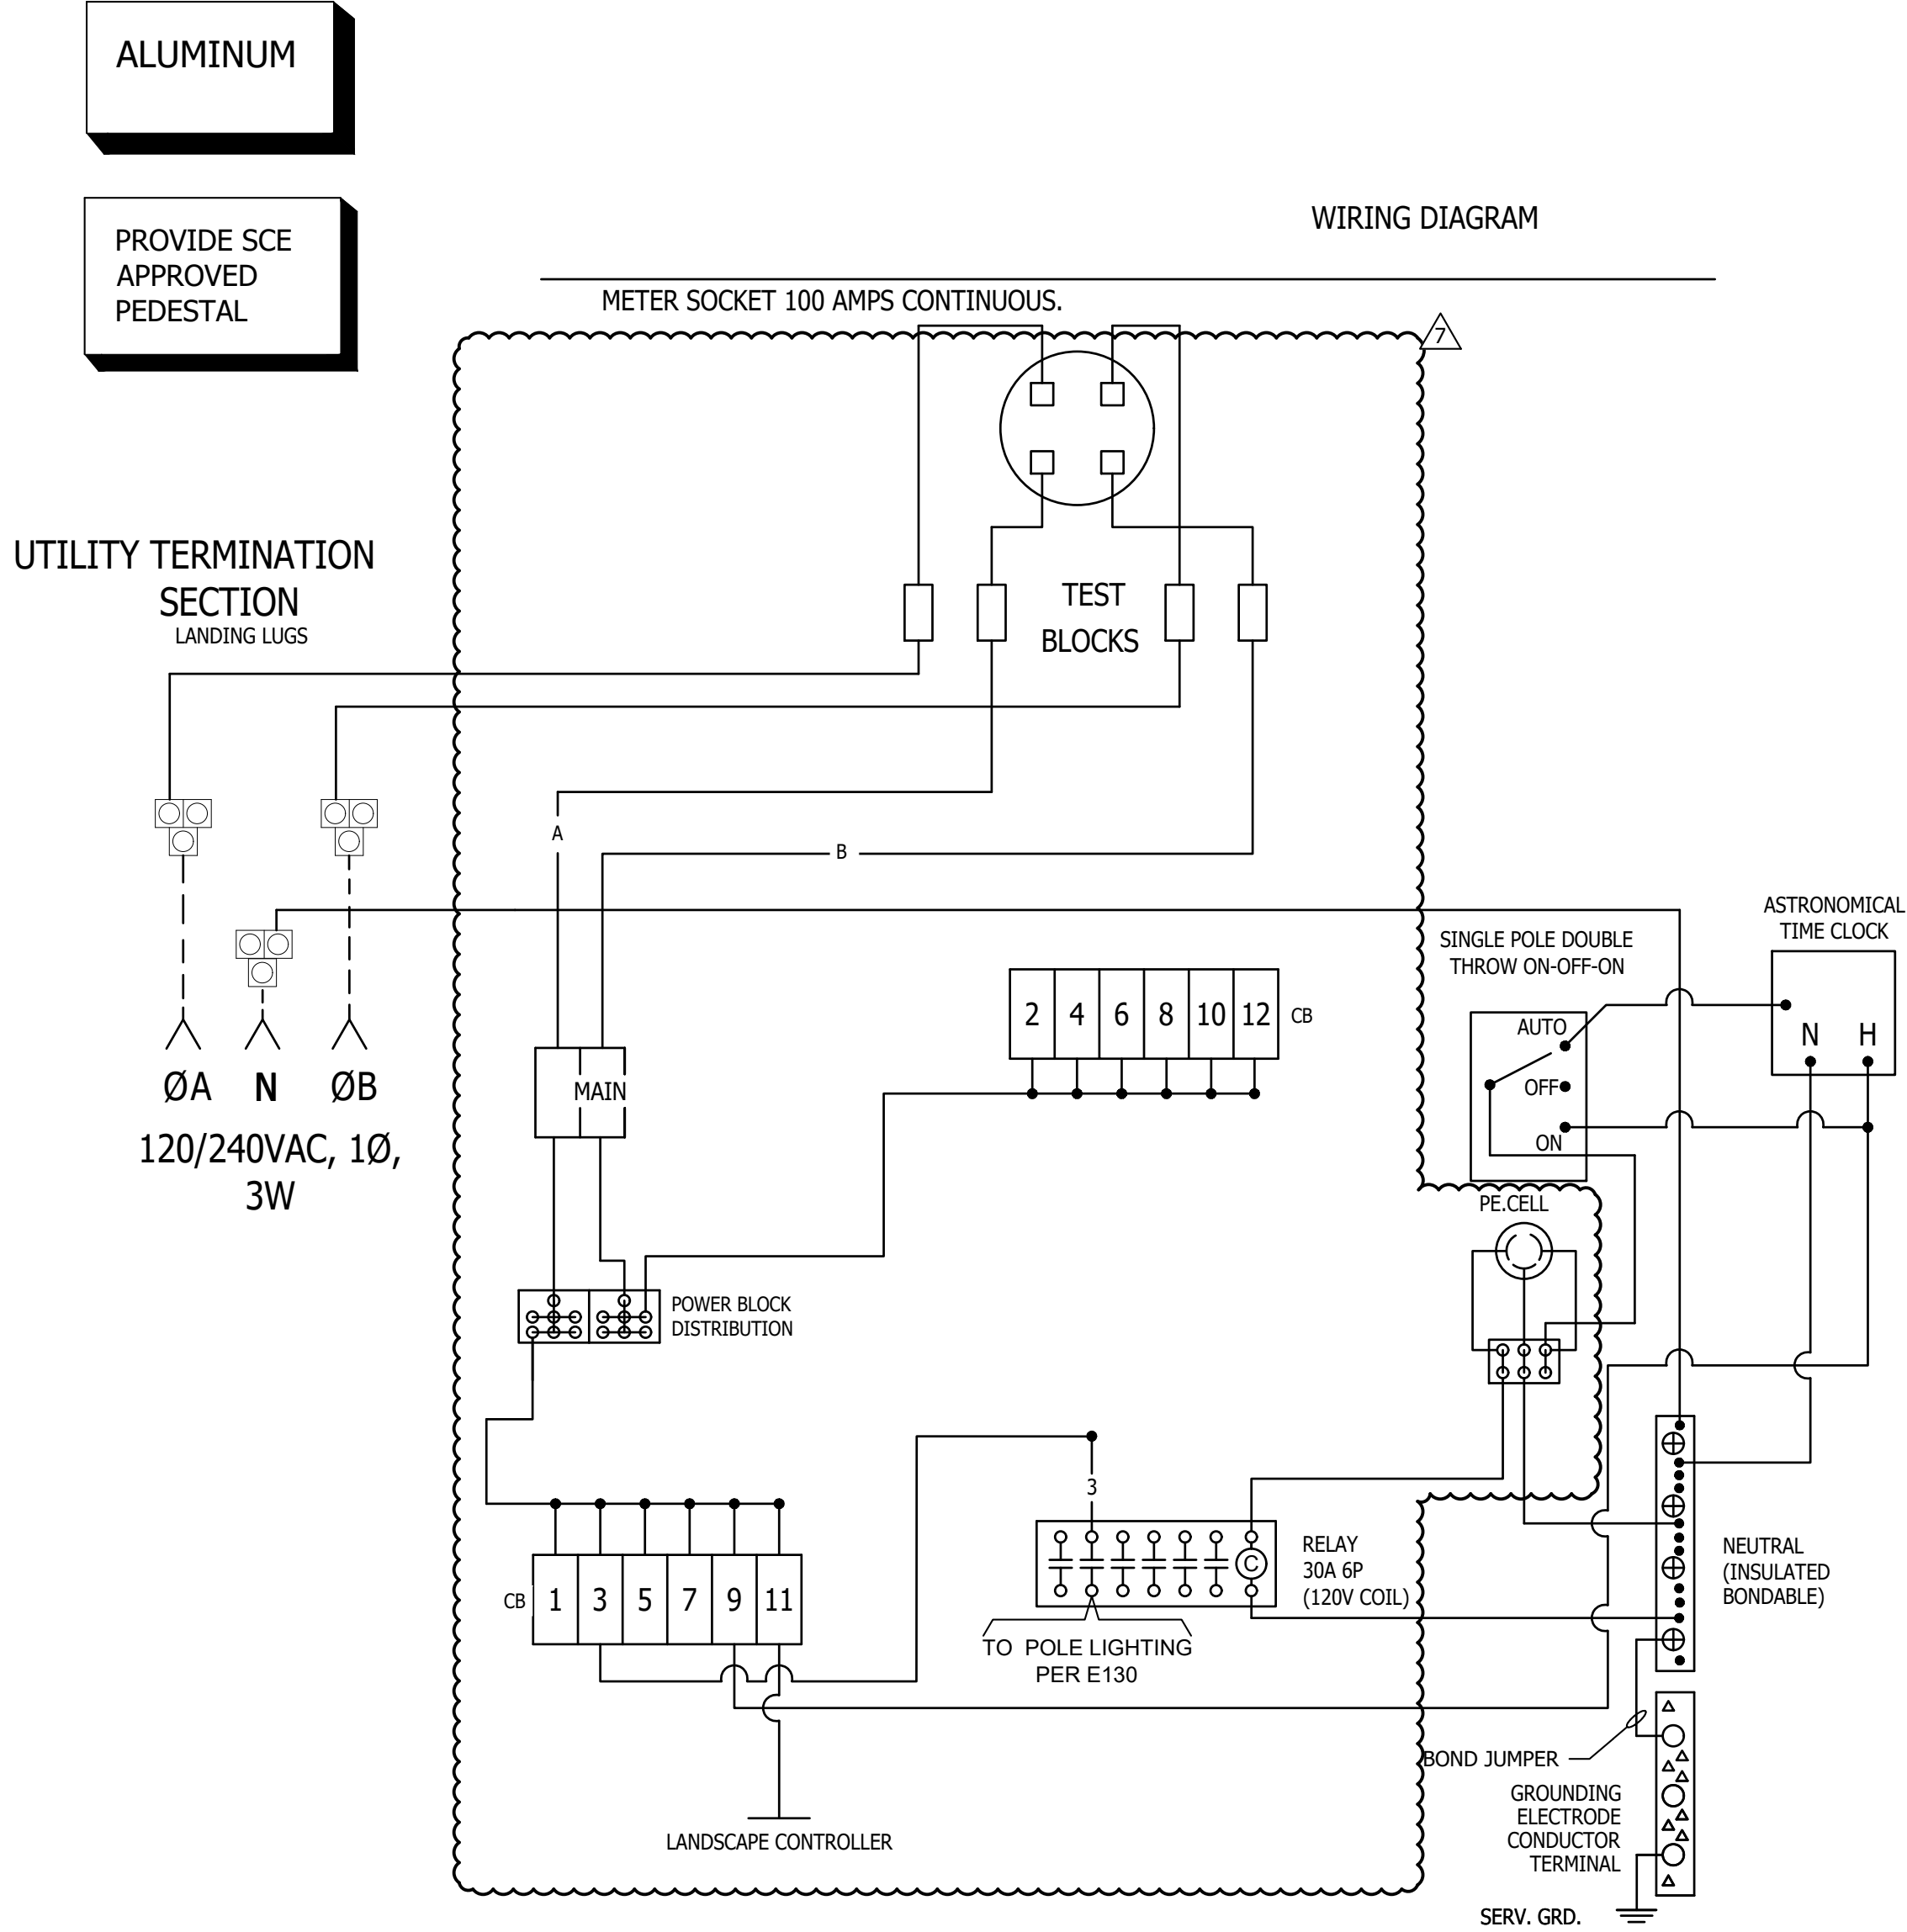

If there are any discrepancies or conflicts between the City permit requirements for work on City property and the BCHD DIV 0 & DIV 1 General Requirements, assume the more stringent will be enforced for this overall project.

C. PLAN HOLDERS LIST

Current list of registered plan holders and list of Job Walk Attendees is attached as Exhibit C.
